

HPR Working Test Sudeley Castle – 5th June 2011

Hi All,

Another successful working test has taken place, that competitors very much enjoy coming to. The ground is testing and challenging, plus the 'friendly atmosphere and support' given by everyone on the support team (from stewards, dummy throwers, catering team, transport team, society officials, judges and their families) to all the competitors, new and old, made them feel welcome from the very start of the day until they went home. Whether it was looking for the next test, exchanging views on gun dog work or family life the support team were very happy to give the time and effort and go those extra miles to make it a good day out for everyone.

'Thank you' does not fully describe my own appreciation of ALL the support given before, during and after the day, and I am committed to supporting both the spaniel and retriever groups within the society when they run their own events.

Again Many Thanks

Regards

Ray Davies
